Kind of Brain	GROUP RESPONSE
Oga/Champion (or simply, Fighter, depending on the specific nuance needed, but "Champion" or a descriptive phrase is safer for general use.) ***Self-Correction based on strict adherence to the prompt:* Since the input is a single, powerful, metaphorical word, and I cannot add context, I must provide the most direct, yet idiomatic, translation. I will use a term that conveys strength and resilience.** ***Revised Final Output:* Champion (or, if the context demands a more active, fighting spirit: Fighter)** ***Choosing the most universally accepted and powerful single word:* Champion.<channel|**	Let am flow.
